Message:

Loren -

There were more problems with the draft ERPP document than I thought - sorry it's taken so long to get these comments to you. I only had a chance to review the East San Joaquin Basin, San Joaquin River, and Eastside Delta Tributaries Ecological Zones. There were some serious errors in these sections, as you can see. The other sections probably also have serious errors. Hope there'll be time to improve the document before it goes out.

Alice
